

University of Regina

In August 2014, the University of Regina Men's Hockey Team travelled to Germany for 8 days of sightseeing and playing in pre-season hockey games. Working with Peggy and Silvia of Ice Time Europe, they planned and developed an incredible team experience that far exceeded my expectations. We had the opportunity to play 2 games in Germany and 1 in Switzerland during our stay. While hockey was our main focus, we also wanted to balance that time while experiencing the great country we were visiting. Peggy and Silvia organized several cultural, historical and educational events for the players and families to experience. They personally reviewed and designed all the activities prior to our arrival so our tour had the maximum impact and balance of rest and adventure.

Having played and lived in Germany for many years I can honestly say that the players soaked in their experience and learned so much about the German culture and history during our stay. They were engaged in the activities that were planned and enjoyed themselves thoroughly. The University of Regina will be going back to Europe in the near future and Ice Time Europe with Peggy and Silvia will be the first people I contact when that time comes.
